SPECIAL ATTENTION CALLED!!

Persons who have not tried

THE

Cash System have not any idea how much it simplifies the transaction and benefits both the buyer and seller. It is a saving to the purchaser of a very large percentage. Such

Houses as are in the habit of allowing credit to their customers from six months to one year, add an average of at least ten per cent to the

CASH

Price. And this must be so, because the dealer cannot afford to lose the interest on his money and take the risk of a failure of payment of a portion, which is inevitable. Another fact for debtors, and that is that where one of these dealers gives credit he calculates that a certain per-

centage of the debts will never be paid, and this percentage is necessarily added to the charges to all customers, both time and cash.

There are multitudes of other benefits which will suggest themselves to any thoughtful person, all accruing by the Cash

SYSTEM.

Therefore, CROSSON & FINK would respectfully invite the public to examine their stock, which they are selling exclusively for cash.
